

**WHAT MAKES
HIGH ALTITUDE WINE
SO UNIQUE?**

The combination of low soil nutrients, dramatic climate shifts and intense sun exposure provide the harsh – yet perfect – conditions for these low-yielding vines to produce some of the most robust berries in the world.

Wines made with these resilient crops are coveted around the world for their lively flavors, bright acidity and the intensity of their aromas, combined with a color so deep, it almost appears black.

LOCAL SELECTIONS

- Biltmore Estate** 55
